About This Game

Welcome to Torchlight! A sleepy enclave founded on the discovery of rich veins of Ember: a rare and mysterious ore with the power to enchant or corrupt all that it touches. Emboldened by its power, legions of twisted creatures have begun to swarm up from the tunnels and caves below town. Choose from three heroes in this Action-RPG and delve into the caverns below town for endless treasure and glory.

Key Features

RANDOMIZATION

Your adventure is uniquely your own. Explore seven lovingly crafted environments randomly generated with new monsters, treasures, puzzles, and items each time you embark on your journey.

MOD SUPPORT

All the tools we used to make Torchlight are fully available in TorchED. Change your gameplay experience, or create something entirely new to explore and share.

PETS & FISHING

Take a break from your fast-paced job adventuring and go fishing. Your catch will help you along your journey. Solo adventuring can be a lonely so chose a faithful companion to accompany you. Your pet will carry items for you, help you in

battle, and – with the right fish – can even transform into powerful allies!

RETIREMENT SYSTEM

Hanging up your boots doesn't mean the adventure has to be over. “Retire” your hero and pass down a prized item imbued with unique attributes for your new hero.

Title: Torchlight
Genre: RPG
Developer:
Runic Games
Publisher:
Runic Games
Release Date: 27 Oct, 2009

English

A fun, but fairly easy little Diablo 1 knock-off with some decent QoL improvements. The storyline is incredibly simple as is the gameplay, but it has its charming little nuances, such as feeding your pet various fish to transform it (' :. So let me add by saying this is by one of mose enjoyable games ive played on Steam. The gameplay itself is very astonishing, you have several different skill sets and abilities to go through while having many quests to add on to always help level you. You can go pick one of three characters but even if you play as any of the three characters you will likely have to play more than one playthrough with the same character to try all the different skillsets and abiltiies they have. Torchlight is fun and interesting has a decent lore and requires quick analysis of your surroundings if you dont want to immediately killed on high difficulties. A must play in my book. <https://steamcommunity.com/games/593110/announcements/detail/1808664240333155775>
